Winner decided by over time shoot out will be credited with one (1) additional goal.

3. Method of determining a champion in round robin tournament play: The standings shall be determined on the basis of two (2) points for a win, zero (0) points for a loss, and one (1) point for a tie. (During district, region and state tournaments, regardless of format, all games will be played to a win/lose situation. There will be no ties.). If two or more teams have an equal number of points, their position in the standings shall be determined by:

a. The results of the games played between the tied teams in the following order:

1. The points acquired in these games.
2. Subtracting goals scored against from goals scored in these games. Their position shall be in order of the greatest surplus.
3. Dividing the goals scored in these games by the goals scored against. The positions being determined in order of the greatest quotient.

b. If after applying the formulas of (a.1, a.2, or a.3) the tie still exists, a.2) and a.3) shall be applied using all the games played by each team. When the tie involves three or more teams, their position in the standings shall be determined by the following tie-breaking format. If one tie-breaker establishes a position for one or more teams, each team is placed in the applicable position. Once a team is placed, the remaining tied teams shall start the tie-breaking process again at step 3.a.1.

c. If the above procedure does not break the tie, the team that scored the first and fastest goal in a game will be the tie-breaker. If the teams are still tied, the teams shall use a shoot out procedure. This will involve each team selecting five (5) players who will alternate taking penalty shots. A toss of the coin will determine which team will take the first shot. If after five (5) players from both teams have completed this procedure, the tie still has not been broken, it shall be repeated with five (5) different players until the standings are determined.
